In Good Condition In Cold Storage  
For Longer With The  
Proper Humidification!'**

# Fruits And Vegetables. Fresher And Longer-Lasting!

For more information, please visit [www.elka-air.nl](http://www.elka-air.nl).

## Humidification For Cold Stores.

To keep products **fresher for longer**, they are often stored in cold rooms or storage cells.

Furthermore, the right temperature can extend the shelf life considerably.

However, during the cooling process, moisture is extracted from the room by the evaporator. This is done because the surface temperature of the evaporator (the cooling block) is lower than the condensation limit. In addition, the products stored in the cell will then release their moisture into the relatively dry air, leading to weight and quality loss.

By expanding your cold stores with a humidification system, **product quality can increase significantly**. This is because the humidification system will replenish the moisture extracted by the evaporator back into the air, thus renewing your stored products.

**The cost.  
Every situation is different! For this reason, we only deliver custom-made solutions.  
Contact us for an obligation-free offer.**

## The **Advantages Of Our Humidification On Your Fruits And Vegetables:**

- ▷ Limits the weight loss of fruits and vegetables.
- ▷ Increases the life span of flowers and plants.
- ▷ Limits leaf discolouration in flowers and plants.
- ▷ Limits "limp necks" in low oxygen pear preservation.

### ElkaFog® a specialist in all types of humidification

As a supplier of compressed, high-pressure, steam, and ultrasonic humidification, Elka Air's specialists can anticipate your requirements like no other. We would be happy to discuss the pros and cons of the various humidification systems with you to help you make the right choice.

### Maintenance & Safety

To avoid risks, Elka Air humidifiers are always equipped with a water standstill monitor. As a result, only cold drinking water is used, and no dead pipes are included in the system. In addition, we offer a maintenance service so that your system is checked annually.
